## What is the Guru Method?

The Guru Method is a step-by-step system for learning organic chemistry. It was developed by Dr. Richard Sacks, a world-renowned organic chemistry professor. The Guru Method is based on the idea that students learn best when they are actively engaged in the learning process. The method uses a variety of learning activities, such as:

- Lectures
- Tutorials
- Practice problems
- Flashcards
- Mind maps

The Guru Method is designed to help students develop a deep understanding of organic chemistry. The method emphasizes the importance of understanding the underlying concepts of organic chemistry, rather than simply memorizing facts.
