Mabry's book is a fascinating look at the lives of these outcasts of faith. He tells their stories with empathy and understanding, highlighting their courage and resilience in the face of persecution. These individuals are not always easy to like, but they are always interesting. They force us to question our own beliefs and assumptions, and they challenge us to think more deeply about the nature of faith.

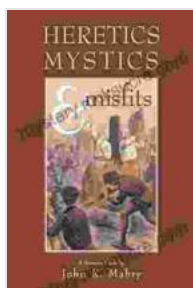

One of the most striking things about Mabry's book is the diversity of the individuals he profiles. There are heretics like Arius, who denied the divinity of Christ, and mystics like Hildegard of Bingen, who experienced visions of God. There are misfits like Francis of Assisi, who abandoned wealth and privilege to live a life of poverty and preaching, and there are radicals like John Wycliffe, who challenged the authority of the pope.

Despite their differences, these individuals share a common thread: they have all been marginalized by the religious establishment. They have been labeled as heretics, mystics, or misfits because they have dared to challenge the status quo. But their stories are not just about persecution and suffering. They are also stories of hope, resilience, and transformation. These individuals have shown us that it is possible to live a life of faith outside the bounds of traditional religion. They have shown us that it is possible to question authority, to seek new ways of understanding God, and to live a life of purpose and meaning.

Mabry's book is a valuable contribution to the study of religion. It is a reminder that the history of Christianity is not simply a story of orthodoxy and heresy. It is also a story of dissent, innovation, and change. The individuals profiled in this book are a testament to the diversity and vitality of the Christian faith. They are a reminder that the search for God is a never-ending journey, and that there is always more to learn about the nature of faith and spirituality.
