

How to Chip Like a Pro in Simple Steps: A Comprehensive Guide

Chipping is one of the most important shots in golf. It can save you strokes and help you get up and down from around the green. But chipping can also be one of the most difficult shots to master. If you're struggling to chip the ball consistently, don't worry. With a little practice, you can learn how to chip like a pro.

Step 1: Set Up

The first step to chipping like a pro is to set up properly. This means positioning your body correctly and holding the club correctly. Here are a few tips for setting up:

HOW TO CHIP LIKE A PRO IN 4 SIMPLE STEPS (PLAY BETTER GOLF Book 2) by Frank Muir

- Stand with your feet shoulder-width apart and your knees slightly bent.

- Position the ball in the middle of your stance, with your weight evenly distributed on both feet.
- Hold the club with a light grip, with your hands about shoulder-width apart.
- Keep your head down and your eyes focused on the ball.

Step 2: Backswing

Once you're set up properly, you're ready to start your backswing. The backswing is the part of the swing where you take the club back from the ball. Here are a few tips for making a good backswing:

- Start your backswing by hinging your wrists and pulling the club back with your arms.
- Keep your head down and your eyes focused on the ball.
- As you swing back, let the clubhead drop down slightly.
- Stop your backswing when the clubhead is about halfway back.

Step 3: Downswing

The downswing is the part of the swing where you bring the club back down to the ball. Here are a few tips for making a good downswing:

- Start your downswing by rotating your hips and shoulders.
- Keep your head down and your eyes focused on the ball.
- As you swing down, let the clubhead drop down slightly.
- Hit the ball with a solid, crisp stroke.
- Follow through with your swing, finishing with the clubhead pointing at the target.

Step 4: Follow-Through

The follow-through is the part of the swing where you finish the swing and the clubhead comes to a stop. Here are a few tips for making a good follow-through:

- Keep your head down and your eyes focused on the ball.

- Finish with the clubhead pointing at the target.
- Let the clubhead swing through to a natural finish.

Tips for Chipping

Here are a few additional tips to help you chip the ball like a pro:

- Use a pitching wedge or a sand wedge for most chips.
- Choose a club that will allow you to hit the ball the desired distance.
- Take a practice swing before you hit the ball.

- Keep your head down and your eyes focused on the ball throughout the swing.
- Don't try to hit the ball too hard. A soft, smooth stroke will produce the best results.
- Practice chipping regularly to improve your accuracy and consistency.

Chipping Drills

Here are a few chipping drills to help you improve your chipping skills:

- **Chip-and-run drill:** This drill helps you learn how to hit the ball low and run it up to the hole.
- **Chip-and-stop drill:** This drill helps you learn how to hit the ball with a higher trajectory and stop it quickly on the green.
- **Lob-and-drop drill:** This drill helps you learn how to hit the ball high and soft, landing it softly on the green.

With a little practice, you can learn how to chip like a pro. By following these simple steps and tips, you can improve your chipping accuracy and consistency, and save yourself strokes on the golf course.
