This is a Path...

Others have walked it before you,
Others may walk it with you
and Others will walk it after you,
BUT NO ONE CAN WALK IT FOR YOU.

Freemasonry is a fraternal organization that has been around for centuries. It is based on the principles of brotherly love, relief, and truth. Freemasons believe in the importance of personal development and helping others.

The path of Freemasonry is a journey of self-discovery and service to others. It is a path that can lead to a deeper understanding of yourself, your purpose in life, and the world around you. Freemasonry offers a unique

opportunity to learn about yourself and develop your potential in a supportive and encouraging environment.

The Principles of Freemasonry

The principles of Freemasonry are brotherly love, relief, and truth. These principles are the foundation of the organization and guide everything that Freemasons do.

- **Brotherly love** is the foundation of Freemasonry. Freemasons believe in the importance of treating everyone with respect and compassion, regardless of their race, religion, or social status. Freemasons are taught to love their brothers as themselves and to always be there for them in times of need.
- **Relief** is another important principle of Freemasonry. Freemasons believe in helping those who are less fortunate than themselves. Freemasons are always willing to lend a helping hand to those in need, whether it is providing financial assistance, food, clothing, or shelter.
- **Truth** is the third principle of Freemasonry. Freemasons believe in the importance of seeking truth and living by it. Freemasons are taught to be honest and truthful in all their dealings and to always strive to do what is right.

The Entered Apprentice degree is the first step on the path of Freemasonry. In this degree, you will learn about the basic principles of Freemasonry and the importance of self-discipline. You will also begin to develop your Masonic skills and knowledge.
